Overview of findings and recommendations

To save you time when assessing the report, we only provide maps and data tables of features within the search radius that we have identified to be of note.

You can view the fully comprehensive library of information we have searched on **page 22**.

Transportation

HS2

The property lies within 5km of the HS2 route. Next steps for consideration:

- consider obtaining a further professional assessment in order to obtain more detailed information of the effects it is likely that the property will experience. Further information on these assessments can be found on the HS2 website www.gov.uk/government/organisations/high-speed-two-limited, or you can email HS2 at the dedicated property owners email address: residentscommissioner@hs2.org.uk

Crossrail 2

The property lies within 250m of the proposed Crossrail 2 route. Next steps for consideration:

- you can obtain further details on the potential impact of Crossrail 2, the location of Crossrail 2 works, the development schedule and property schemes on the Crossrail website <http://crossrail2.co.uk/discover/safeguarding/> or by contacting the Land and Property team via the Helpdesk on 0345 222 0055 or crossrail2@tfl.gov.uk

Railways

The property lies within 250m of an active railway. Next steps for consideration:

- consider visiting the property at different times of day and night in order to gauge relative noise and vibration levels that may result from normal operations. It may also be prudent to check the operational hours for the relevant line(s) and check whether structural surveys at the property have considered the potential for vibration from trains to have resulted in property damage

Underground

The property lies between 25m and 100m of an underground railway or DLR line. Next steps for consideration:

- significant effects on the peaceful enjoyment of the property are unlikely to result from the normal operation of underground or DLR services. However, a prudent purchaser may wish to visit the property at different times of day to confirm that noise and vibration from the underground or DLR are not perceptible. Furthermore, noise from overground sections of the line can travel significantly further than noise from underground sections

Energy

Wind

Existing or proposed wind installations have been identified within 5km. Next steps for consideration:

- use the details given in the report to find out more about the potential impacts on the property
- contact the operating company and the relevant Local Authority for further information
- visit the area in order to more accurately assess the impact this wind development would have on the property

Solar

Existing or proposed solar installations have been identified within 5km of the property. Next steps for consideration:

- use the details given in the report to find out more about the potential impacts on the property by contacting the operating company and/or Local Authority
- visit the area in order to more accurately assess the impact this solar farm would have on the property

Power stations

One or more Power Stations have been identified within 5km of the property. Next steps for consideration:

- visit the power station operator's website for further information. Many power stations have large amounts of information on their local impacts available on the operator's website
- additionally, you could contact the Air Quality team of the Local Authority which may hold additional information regarding any air quality impacts in the area
- if a nuclear installation has been identified, consider visiting <http://www.onr.org.uk/regulated-sites.htm> for further information on the site

Transportation summary

HS2

Results for Phase 1 or Phase 2 of the HS2 project have been identified within 5km of the property. However, HS2 routes are still under consultation and exact alignments may change in the future.

Please see **page 2** for further advice. Additionally, see **page 5** for details of the identified issues.

HS2 Route	Identified
HS2 Safeguarding	Not identified
HS2 Stations	Identified
HS2 Depots	Not identified
HS2 Noise	Assessed
HS2 Visual impact	Identified

Crossrail

Our search indicates the property is within 250 metres of the Crossrail 2 project.

Please see **page 2** for further advice. Additionally, see **page 7** for details of the identified issues.

Crossrail 1 Route	Not identified
Crossrail 1 Stations	Not identified
Crossrail 1 Worksites	Not identified
Crossrail 2 Route	Identified
Crossrail 2 Stations	Identified
Crossrail 2 Worksites	Identified
Crossrail 2 Safeguarding	Identified
Crossrail 2 Headhouse	Not identified

Other Railways

Our search indicates the property is within 250 metres of railways or railway stations, subway or DLR lines, active railways, historical railways or tunnels.

The Underground assessment includes London Underground, DLR, Tyne and Wear Metro, Merseyrail and Glasgow Subway.

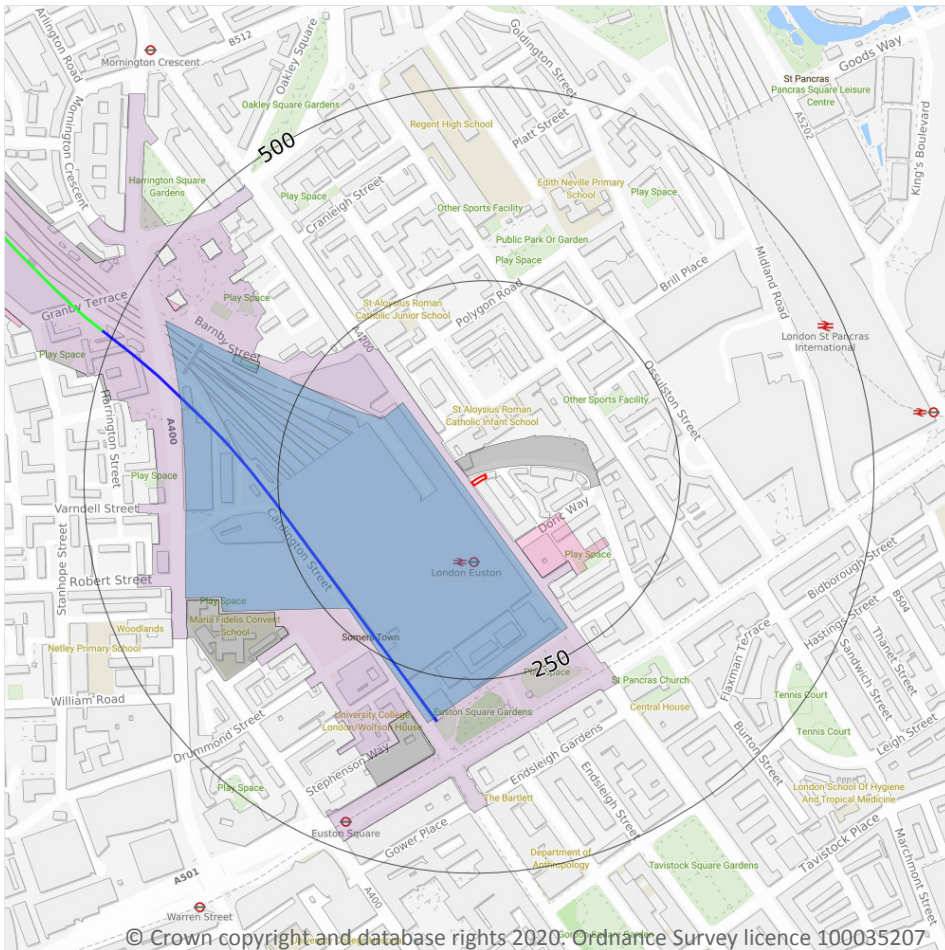

Please see **page 2** for further advice. Additionally, see **page 9** for details of the identified issues.

Active Railways and Tunnels	Identified
Historical Railways and Tunnels	Identified
Railway and Tube Stations	Identified
Underground	Identified

Transportation

HS2

Site Outline

Search buffers in metres (m)

HS2 line information

- HS2 Depots

HS2 safeguarding areas

- HS2 Surface Safeguarding
- HS2 Subsurface Safeguarding

HS2 property scheme areas

- Homeowner Payment Zones 1-3
- Rural Support Zone
- Extended Homeowner Protection Zone

HS2 route: nearest centre point of track

The property is within 219 m of the original or second proposed HS2 route including the adjustments detailed in November 2016 and July 2017.

As such, because there is a chance that this high speed rail line will be built close to the property, although this could be subject to change, Groundsure recommends that further investigation and consideration is given to this outcome.

Distance	Direction	Track Type	Speed (mph)	Speed (km/h)	Consultation
219 m	SW	Surface Running Track	31	50	Current preferred consultation route

HS2 stations

The property is near to a proposed HS2 station. This could be a new station that is being built especially for the new route, or an existing station.

While this could be beneficial to the homeowner, regarding future transport links, there may be disruption while the scheme is constructed alongside noise and air pollution for a period of time.

Distance	Direction	Site Name	Boundary
11 m	SW	Euston Station	Construction Boundary

HS2 noise and visual assessment

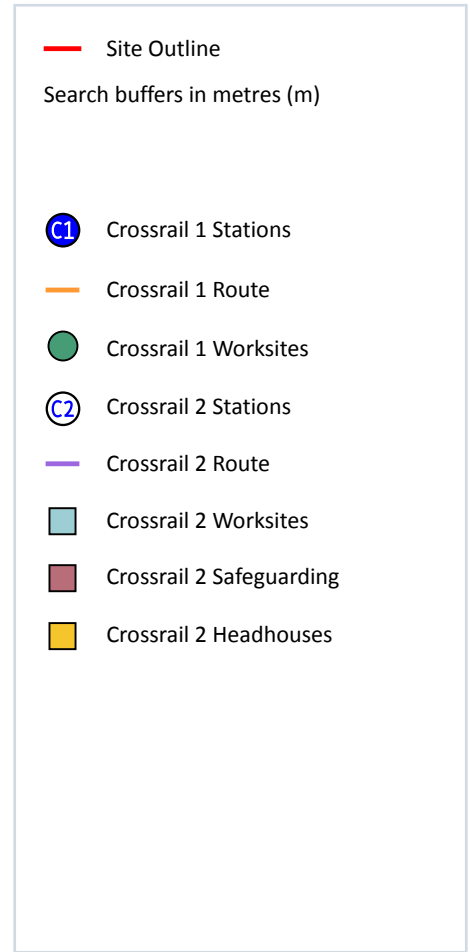

The visibility assessments are taken from computer-generated models supplied by HS2, and show areas with a theoretical line of visibility to HS2 at different stages of development (construction, initial operation and after 15 years of operation). The model showing visibility after 15 years of operation assumes a growth height of 7.5m of any mitigation planting. This model is only currently available for Phase 1 and Phase 2a of HS2, and only within 2km of the HS2 line itself.

The noise assessments represent sound from HS2 and are generally assessed up to 1km from HS2 in rural areas, and up to 500m in urban areas, though in some cases the assessed area may be greater or smaller than this. This assessment does not take account of any existing background noise from railways, motorways etc. The modelled noise reading for this site is 24Db.

Will HS2 be visible from the property?

During construction	During 1st year of operation	During 15th year of operation
Yes	Yes	Yes

Crossrail

Crossrail 2 route

The property is located 0 metres from the proposed Crossrail 2 line. Crossrail 2 is a proposed route connecting Surrey to Hertfordshire through Central London. Construction is expected to start around 2023, with the line to open in the early 2030s. Further information on the Crossrail 2 project can be found at <http://crossrail2.co.uk>.

Please note that the Crossrail 2 project is still at the planning stage and there is no guarantee that the scheme will receive agreement and funding at this time.

Distance	Direction	Section	Route Type
0	on site	Central Core	Tunnelled route

Crossrail 2 stations

The property lies within 250m of a proposed Crossrail 2 station. Further details on the station can be found on the Crossrail2 website <http://crossrail2.co.uk/route/stations/>.

Distance	Direction	Station Name	Status
89 m	SE	Euston	New

Crossrail 2 worksites

The property lies within 250m of a proposed worksite for Crossrail 2. Depending on the size and complexity of the development, this could cause temporary disruption to the owner/occupier of this property. Further information on the implications of Crossrail2 can be found at their website on <http://crossrail2.co.uk/route/shafts-and-portals/>.

Distance	Direction	Description
0	on site	Indicative Area for Worksite
160 m	SE	Indicative Area for Worksite
208 m	SE	Indicative Area for Worksite

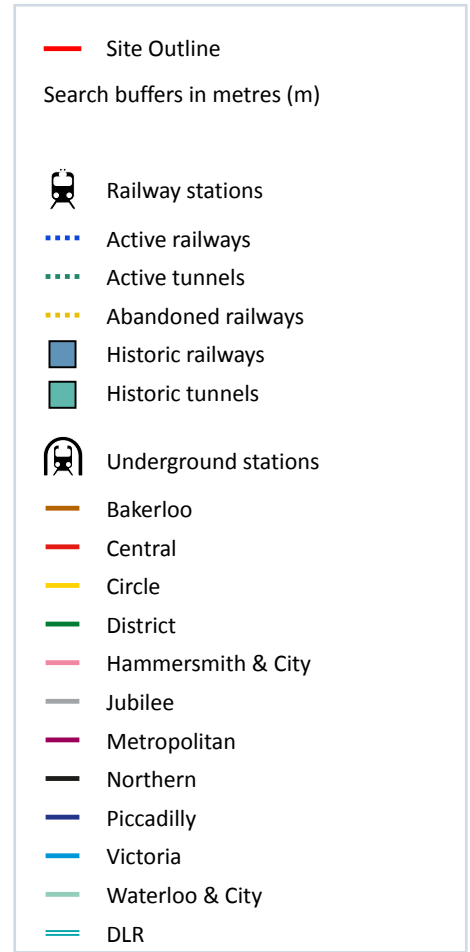

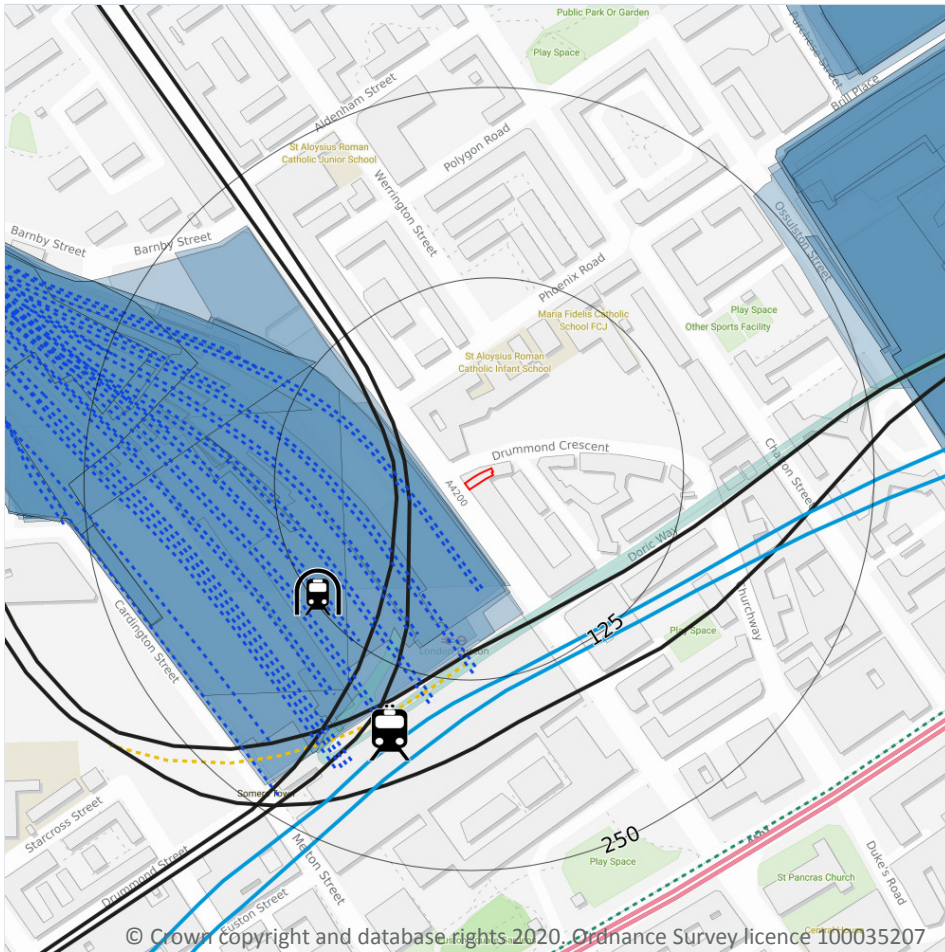

Crossrail 2 safeguarding area

The property lies within a safeguarding area for the proposed Crossrail 2 project. Being in a safeguarding area does not mean that a property or business will definitely be affected by the construction and operation of Crossrail 2. Local planning authorities are obliged to consult Transport for London (TfL) on any planning applications within the Safeguarding Area, and property owners and occupiers within the Area may be eligible to serve a Blight Notice asking Transport for London to buy their property, prior to it being needed for construction, for the price it would be worth if Crossrail 2 was not being built. Further information on safeguarding can be found here <http://crossrail2.co.uk/discover/safeguarding>.

Please note that the official Crossrail 2 safeguarding areas may not reflect more recent updates to the route within the locality of Tooting Broadway, Balham and Wandsworth Common. If your property is within these localities and within the Safeguarding Area, Groundsure would advise that further clarification should be sought from Crossrail 2 on likely changes to the Safeguarding Areas as your property may be unaffected by the final route.

Groundsure will endeavour to update any superseded Safeguarding Areas as soon as official data is released.

Railways and Underground

Active railways

The property is within 31 metres of an active railway line. Noise from railways varies significantly depending on the condition of the track, the conditions of the trains using the track and the speed of travel.

Groundsure suggests that you visit the property at different times of day in order to gauge the relative noise levels at and around the property. Defra noise maps may also offer an indication of general noise levels in the area, though cannot be used to assess the levels within an individual property. In the future, if you consider the property to be affected by railway noise from passenger trains, Network Rail may be able to assist in investigating this.

Active railway stations

The nearest railway station is identified below.

Distance	Direction	Name
168 m	S	London Euston Rail Station

Historical railway infrastructure

The property is situated within 250m of a railway or tunnel feature identified on historical mapping. Please note that many historical railways noted in this section will still be in use today.

Please note that for reasons of clarity only the closest record identified will be shown in the table below, though the full extent of records identified can be seen on the map.

Distance	Direction	Feature	Year
15 m	SW	Railway	1876

Abandoned railways

The property is situated within 250m of an abandoned railway. Abandoned railways have the potential to be reopened in the future, and abandoned tunnels can also pose ground stability issues if a property basement is to be developed.

Distance	Direction	Status
114 m	S	Razed
114 m	S	Dismantled

London Underground and DLR lines

The property is situated within 250m of London Underground lines or the Docklands Light Railway.

Distance	Direction	Approx.depth (m)	Track Type	Name	Running times
41 m	W	22.04	Tunnel	Northern Line	Mon-Thu: Early 0512 Late 2358 Fri-Sun: Early 0522
123 m	S	32.5	Tunnel	Victoria Line	Mon-Thu: Early 0521 Late 0102, Fri: Early 0521, 24hr service until Sun, Sun: Late 0006

London Underground and DLR stations

The property is situated within 250m of London Underground or Docklands Light Railway stations.

Distance	Direction	Name	Lines(s)	Zone(s)
120 m	SW	Euston	Northern, Victoria	1

Energy summary

Oil and Gas

No historical, active or planned wells or extraction areas (such as fracking sites) identified near the property.

Wind

Proposed wind farms

A wind farm or group of turbines or individual wind turbine has been proposed within 5,000m of the property. See below for details of the operating company, number of turbines, project and turbine capacity.

Please note some planning applications identified as having been refused, may have subsequently been granted on appeal without appearing as such within this report. Additionally, please be aware that as the identified records are taken from a planning record archive, the proposals identified may have already been undertaken.

This information is derived from planning data supplied by Glenigan, in some cases with further accuracy applied by Groundsure's experts. This search includes planning applications for wind farms with multiple turbines within 5,000m of the property. This data is updated on a quarterly basis.

If the existence of a planning application, passed or refused may have a material impact with regard to the decision to purchase the property, Groundsure recommends independent, thorough enquiries are made with the Local Authority. If any applications have been identified within this report, Groundsure have included the planning reference to enable further enquiries to be made.

Proposed wind turbines

Planning applications for individual wind turbines have been proposed within 5,000m of the property. See below for details of the operating company, number of turbines, project and turbine capacity.

Please note some planning applications identified as having been refused may have subsequently been granted on appeal without appearing as such within this report. Additionally, please be aware that as the identified records are taken from a planning record archive, the proposals identified may have already been undertaken.

This information is derived from planning data supplied by Glenigan, in some cases with further accuracy applied by Groundsure's experts. This search includes planning applications for single wind turbines only, within 5,000m of the property. This data is updated on a quarterly basis.

If the existence of a planning application, passed or refused, may have a material impact with regard to the decision to purchase the property, Groundsure recommends independent, thorough enquiries are made with the Local Authority. If any applications have been identified within this report, Groundsure have included the planning reference to enable further enquiries to be made.

Solar

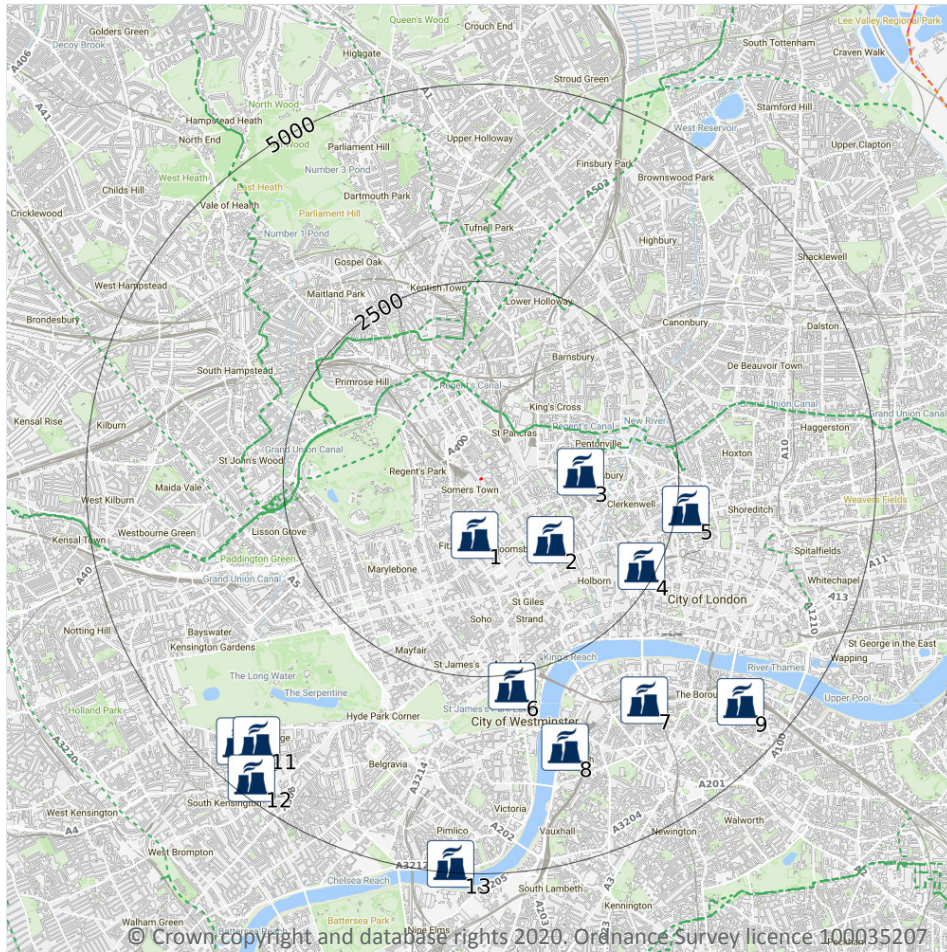

Proposed solar installations

There is a planning permission application relating to a solar farm or smaller installation near to the property. Please note this will not include small domestic solar installations and that one site may have multiple applications for different aspects of their design and operation. Also note that the presence of an application for planning permission is not an indication of permission having been granted. Please be aware that as the identified records are taken from a planning record archive, the proposals identified may have already been undertaken. See below for details of the proposals.

Power stations

Power stations

There is an active power station on or near to the property. Power stations can cause air pollution issues and may not be visually pleasing.

Power generation stations identified by these searches have a capacity of over 1 MW (Million Watt output) and will be one of the following types: Combined Cycle Gas Turbine (CCGT), Gas/Oil, Coal Gas, Diesel Gas, HP Oil, Poultry Litter, Coal/Oil, Coal/Gas, Meat and Bone, Pumped Storage Mine Gas, Rapeseed Oil, Straw/Gas Waste Combined Heat or Power Biomass.

Air pollution issues can be investigated further through the Air Quality team at the Local Authority. If the existence of any of a power generation station may have a material impact with regard to the decision to purchase the property, Groundsure recommends making independent enquiries with the operating company listed.

Energy and Transportation

Specimen Address, Specimen Town

Ref:
EnergyTransport_energy_transport_res_9be7
Your ref: GS-TEST
Grid ref: 529603 182841

This data is sourced from the Digest of United Kingdom Energy Statistics (DUKES), a database from the Department for Business, Energy & Industrial Strategy.

Datasets searched

This is a full list of the data searched in this report. If we have found results of note we will state "Identified". If no results of note are found, we will state "Not identified". Our intelligent filtering will hide "Not identified" sections to speed up your workflow.

Transportation		Transportation	
HS2 route: nearest centre point of track	Identified	London Underground and DLR stations	Identified
HS2 route: nearest overground section	Identified	Underground	Not identified
HS2 surface safeguarding	Not identified	Underground stations	Not identified
HS2 subsurface safeguarding	Not identified		
HS2 Homeowner Payment Zone	Not identified	Oil and Gas	
HS2 Extended Homeowner Protection Zone	Not identified	Oil or gas drilling well	Not identified
		Proposed oil or gas drilling well	Not identified
HS2 stations	Identified	Licensed blocks	Not identified
HS2 depots	Not identified	Potential future exploration areas	Not identified
HS2 noise and visual assessment	Identified	Wind and solar	
Crossrail 1 route	Not identified	Wind farms	Not identified
Crossrail 1 stations	Not identified	Proposed wind farms	Identified
Crossrail 1 worksites	Not identified	Proposed wind turbines	Identified
Crossrail 2 route	Identified	Existing and agreed solar installations	Not identified
Crossrail 2 stations	Identified	Proposed solar installations	Identified
Crossrail 2 worksites	Identified	Energy Infrastructure	
Crossrail 2 headhouses	Not identified	Electricity transmission lines and pylons	Not identified
Crossrail 2 safeguarding area	Identified	National Grid energy infrastructure	Not identified
Active railways	Identified	Power stations	Identified
Railway tunnels	Not identified	Nuclear installations	Not identified
Active railway stations	Identified	Large Energy Projects	Not identified
Historical railway infrastructure	Identified		
Abandoned railways	Identified		
London Underground and DLR lines	Identified		

Conveyancing Information Executive and our terms & conditions

IMPORTANT CONSUMER PROTECTION INFORMATION

This search has been produced by Groundsure Ltd, Sovereign House, Church Street, Brighton, BN1 1UJ. Tel: 08444 159 000. Email: info@groundsure.com. Groundsure adheres to the Conveyancing Information Executive Standards.

The Standards

- Conveyancing Information Executive Members shall act in a professional and honest manner at all times in line with the Conveyancing Information Executive Standards and carry out the delivery of the Search with integrity and due care and skill.
- Compliance with the Conveyancing Information Executive Standards will be a condition within the Conveyancing Information Executive Member's Terms and Conditions.
- Conveyancing Information Executive Members will promote the benefits of and deliver the Search to the agreed standards and in the best interests of the customer and associated parties.

Complaints Advice

If you have a query or complaint about your search, you should raise it directly with the search firm, and if appropriate ask for any complaint to be considered under their formal internal complaints procedure.

If you remain dissatisfied with the firm's final response, after your complaint has been formally considered, or if the firm has exceeded the response timescales, you may refer your complaint for consideration under The Property Ombudsman scheme (TPOs). The Ombudsman can award up to £5,000 to you if the Ombudsman finds that you have suffered actual financial loss and/or aggravation, distress or inconvenience as a result of your search provider failing to keep to the Standards.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to TPOs.

COMPLAINTS PROCEDURE: If you want to make a complaint, we will:

- acknowledge it within 5 working days of receipt
- normally deal with it fully and provide a final response, in writing, within 20 working days of receipt
- liaise, at your request, with anyone acting formally on your behalf

Complaints should be sent to:

Operations Director, Groundsure Ltd, Sovereign House, Church Street, Brighton, BN1 1UJ. Tel: 08444 159 000. Email: info@groundsure.com If you are not satisfied with our final response, or if we exceed the response timescales, you may refer the complaint to The Property Ombudsman scheme (TPOs): Tel: 01722 333306, E-mail: admin@tpos.co.uk We will co-operate fully with the Ombudsman during an investigation and comply with their final decision.

Groundsure's Terms and Conditions can be viewed online at this link: <https://www.groundsure.com/terms-and-conditions-jan-2020/>

Important consumer protection information

All of the advice and reports that Groundsure produces are covered by a comprehensive Remediation Contribution policy to ensure customers are protected, see <https://www.groundsure.com/remediation> for full details.

Data providers

Groundsure works with respected data providers to bring you the most relevant and accurate information in your Energy and Transportation report. To find out who they are and their areas of expertise see <https://www.groundsure.com/sources-reference>.
